WARNING, WARNING, WARNING

Whooping cough (which is sometimes also called pertussis) is a serious infection that usually causes a long coughing illness. In babies, the infection can be life threatening. Anyone can get whooping cough and the infection can spread to others, including babies

IDENTIFY

The infection can be deadly in babies but anyone can get whooping cough

- Babies and young children can stop breathing or develop severe coughing bouts that end with vomiting or gasping for breath
- People of all ages can get whooping cough and can spread it to babies
- Adults often just have a mild cough that lingers

PROTECT

Immunise your baby on time to get the best protection

- Keep anyone with a cough away from your newborn especially until your baby has had 3 whooping cough vaccines
- Booster vaccines for children and adults stop whooping cough spreading to babies
- Immunity fades. You can still get whooping cough, even if you've been immunised

Prevent

Whooping cough spreads quickly when people cough in the early stages of the infection

- If you have symptoms, see a doctor fast and get tested
- Early detection and early treatment prevents spread to others
- Stay home until no longer infectious. Ask your doctor when it's safe to return to work, school or childcare.

School photos

The Photo day went well and we hope to have the photos back in the next few weeks. We will inform you as soon as they arrive. Thank you all for being very understanding about the wait. There were lots of children and lots of photos to be taken

The Little yard

Please call and see the little yard as it is nearly finished and is looking great. Richard Ryan, the landscape gardener, has kindly donated some great plants to enhance the appearance of the yard.

The children get so excited to get outside in the new yard that some of them start running and topple over grazing their knees. The staff have been working on strategies to stop the running when first

going outside until they get used to the different levels and textures of the yard

New Fence

The committee is putting up a new fence between the centre and our neighbour Mr and Mrs Walker on Thursday if the weather is fine. Scott Metcalfe and Tim Wood are coordinating however if there is anyone that could help it would be appreciated.

Footwear and Clothing

In order to ensure the safety of all children playing outdoors it is recommended that children wear lace up or buckled shoes with a textured sole to prevent slipping. Slip on type shoes or thongs are not recommended as they do not provide adequate support or protection for outdoor activities. Children will be provided with an opportunity to play without shoes as well.

For sun protection, please do not send your children to the Centre wearing singlet tops. Our Centre requires children to wear sun-wise clothing, eg t-shirts and shirts with sleeves.

Concerns and Complaints

Feedback from families is an important component in the delivery of high quality services to children and their families. We appreciate hearing your thoughts, whether they are positive or negative. We will use your feedback positively to improve the quality of service we are offering. All concerns and complaints are CONFIDENTIAL
